

# REFUGEE CARE: AN EFFECTIVE AND REFLECTIVE WAY OF WORKING

Our **MA/PhD Refugee Care** teaches you how to understand and help refugees without pathologising them, using their resilience in a human rights context.

.....

You develop an innovative but proven framework to understand the multidimensional complexities of the refugee experience. This helps you to acquire skills to work psychosocially and therapeutically with them.

Both courses give you the opportunity to go on placement and study with a rich mix of international students from varied backgrounds.

Founded in 2004, our course has an impressive reputation and is offered jointly with the Tavistock Centre.

Consistently delivering outstanding teaching and learning for our students.
