EC831 Undergraduate Project submission

Deadline

The final submission deadline for the online submission of your EC831 project can be found in the deadline and test date section of the Undergraduate Handbook.

You can submit your project via the link on the [myEssex portal](#), or through [FASER](#) – our online coursework submission service.

Very important - it is essential that you write your name, registration number, project title on the first page of your project.

Naming your project

Please mark your final submitted project *Project_final.doc* (Microsoft Word version) or *Project_final.pdf* (Adobe pdf version). Please note - only word or pdf versions can be accepted, as the online submission system does not recognise other versions!

Also, remember to submit electronically any data that you may have used - you would not normally include the data in the project itself.

Plagiarism

Remember that all projects will be sent to the JISC Plagiarism detection service.
