

BSc Nursing (Mental Health) (Pre-Registration)

Nursing Skills (Mental Health)

Development of Practical Skills

*(Incorporating the 2010 NMC Essential Skills Clusters
and the NHS Constitution Values and Behaviour)*

HS565 – Nursing Skills (A) PP1

HS566 – Nursing Skills (B) PP2

HS567 – Nursing Skills (C) CP

Student Name.....

Cohort - September 2015

Statement of Consent

This is a **cumulative** skills book which will build, over the course of your studies, into a comprehensive record of your skills achievement. Each subsequent placement mentor will be able to view what has been recorded by previous mentors. This is necessary for them to be able to see areas of strength and weakness in your performance and thus negotiate areas for development within your placement. This document is important and you must keep it safe at all times. It is a permanent record of your practical achievement during the programme which will contribute to the evidence required for final registration. It must be submitted for inspection at the end of every placement and as part of your portfolio.

By signing below you indicate that:

- 1. You understand and consent to your on-going record of skills achievement being shared with each of your mentors/education providers during your studies.**
- 2. You understand and agree that it is your responsibility to keep this record safe and ensure that an accurate copy is maintained.**

Signed **Date.....**

Student Name (print).....

Please note:

In the event of an irretrievably lost/destroyed book:

- The student will work with the relevant programme lead and placement unit to attempt to capture available information from other sources.
- The student and the programme lead will prepare a statement indicating what can be incontestably proved to have been completed.
- Current/recent evidence that can be confirmed with mentors will be signed off with a note indicating circumstances.
- The student will commence a new skills book from the point agreed with the programme lead.

Statements of Progression

To be completed *by the mentor* at Progression Point 1.

To be completed at the end of the first year of study.

I have reviewed the student's skills assessment record up to progression Point 1 (PP1); all skills have been satisfactorily achieved.

Therefore the student (insert name) should remain on the programme in order to work towards Progression Point 2 (PP2).

Mentor Name *Date*

Signature *Qualification*

To be completed *by the mentor* at Progression Point 2.

To be completed at the end of the second year of study.

I have reviewed the student's skills assessment record up to progression Point 2 (PP2); all skills have been satisfactorily achieved.

Therefore the student (insert name) should remain on the programme in order to work towards Completion Point.

Mentor Name *Date*

Signature *Qualification*

Terminology

Mentor

A mentor is a Registered Nurse who, during the student's allocation to the mentor's practice area, takes on a mentoring/supervisory relationship with the student. (Previously may have been known as known as practice-supervisor).

Progression Mentor

A progression mentor is a mentor (as described above) who, during the student's allocation to the mentor's practice area immediately prior to a Progression Point, (i.e. at the end of Year 1 and Year 2) reviews with the student their progress and determines whether the student has met all the competencies required to progress from one part of the programme to the next. No additional training is required to undertake this role.

Sign-Off Mentor

A sign-off mentor is a mentor (as described above) who has met additional criteria and is registered in the same field of practice as the student. At the end of the student's period of training it is the sign-off mentor who makes a final judgement of the student's competence to enter the nursing register.

Link-Lecturer

A member of the University staff, who has specific responsibility for liaison between the staff of the practice area, the University and the student. Link-lecturers are available to support mentors and other staff in their work with students.

Assessor

An assessor is usually a mentor who undertakes formal assessment of the student's performance in real-life or simulated settings. On occasion and with **the prior agreement** of the link-lecturer; the assessor may be another appropriately qualified and experienced registered nurse practitioner who has opportunity to assess specific skills when such opportunities did not arise in the mentor's practice.

Contact Details

Link Lecturers and Programme Leaders may be contacted during office hours
Monday – Friday via the Programme Administrator:

www.essex.ac.uk/hhs/placements

Introduction & General Information

The following package has been drawn from the NMC's *Standards for Pre-Registration Nursing (2010) Annex 3 Essential Skills Clusters (ESCs)* which itemises the skills required for entry to the Register. The package has been developed with reference to *The Code: Standards of Conduct, Performance and Ethics for Nurses and Midwives*, (NMC 2015, www.nmc-uk.org.uk) and *Guidance on Professional Conduct for Nursing and Midwifery Students* (NMC 2009) and the values outlined in the *NHS Constitution* (DoH 2013).

<https://www.gov.uk/government/publications/the-nhs-constitution-for-england>

Each of the ESCs has been mapped against the skill areas to be assessed in this practice document. Each skill includes criteria by which the student can demonstrate achievement. A reference to this can be found under each skill heading, (e.g. ESC 7.1; “*Applies the principles of data protection*” applies to the assessment of skills for Record Keeping).

Progression Points (PP1 and PP2) and Completion Point (CP)

Twice during the programme (Progression Points 1 and 2) students will need to have demonstrated satisfactory development in order to continue within the programme. It is the role of the progression mentor, who is the student's mentor for that placement, to make a decision about the student's progression into the next part of the programme. At the end of the programme (Completion Point) the student must have demonstrated competence in all of the skills required for entry onto the register. It is the role of the sign-off mentor to make a final judgement about the student's competence and be satisfied that the student is safe and effective in practice.

The book contains 20 *focused skills assessment (see below)* sets that the student is required to have achieved by completion of the programme. Each of the skills sets is split into three points, (eg Record Keeping is assessed at 2a, 2b and 2c) which must be completed in sequence. All (a) skills must be achieved by PP1, all (b) skills achieved by PP2 and all (c) skills achieved before CP.

Although all of these skills are important, the need for brevity has also been acknowledged. In consequence, skills developed in PP1 are not generally repeated in full in the documentation of PP2 and CP. It is recognised, however, that they will remain current throughout the programme, building the students level of competence and confidence and, therefore, should be practised as much as possible in order to acquire mastery.

Learning contract

As part of the usual mentor support, mentors and students are expected to document (using the pages towards the end of this book) a meeting at the start, middle and at the end of each placement. In these meetings the student and mentor would briefly discuss the learning aims/outcomes in relation to the placement. The mentor identifies and records opportunities to achieve these aims/outcomes, whilst identifying other learning opportunities that the student may not be aware of. At the mid and end of placement reviews a record should be made of progress in relation to meeting the learning aims/outcomes.

There are two types of skills areas to be assessed during the student's placements. Firstly there are the **Core Professional Values**. This assessment must be undertaken in **every** placement. At the end of each clinical placement the mentor makes an overall assessment of the student's performance and progress using the relevant pages at the end of this skills book.

Comments are invited on the student's performance. This might include constructive evaluations of the strengths and weaknesses of an individual student, progress towards core professional values or other issues that a mentor feels relevant to assist the student to become a Registered Nurse. Should a student fail against any of the core professional values, the student will have failed the clinical placement; the mentor must give specific comments to support this. A student who fails a placement will be given one opportunity to re-take the placement - this re-take opportunity will be a placement of a similar type and duration. If a student fails a clinical placement on the second attempt at the assessment, no further attempt is allowed and the student is required to withdraw from the programme. Only two failed clinical placements which are passed at second attempt in any one year will be allowed during the course of the programme. Any further failures at second attempt will require the student to withdraw from the programme.

The second type of skills is the **Focused Skills' Assessments**. These skill areas can be assessed in **any** of the placement settings a student works in during the programme. However the mentor/ student may find that one placement setting may be more suited to undertaking practice and assessment in a particular skill/ performance criteria. Therefore each focused skills assessment does not need to be undertaken in every placement setting. The mentor and student should identify early on in the placement which of the focused skills assessments would be most suited to the placement area they are presently working in.

Throughout their placements, students, staff and mentors are invited to record the student's progress on the **Progress Sheets** (see example below). This should be used to detail specific activities undertaken and experiences relevant to the focussed skills assessments, particularly when these have been under the supervision of someone other than the mentor/ assessor. The information provided within the progress sheets contribute to the assessments made by the mentor/assessor.

All skills must be practised and assessed (**formative and summative**) in the clinical area. Only in exceptional circumstances and with the agreement of the Programme Lead could an assessment be carried out in the classroom by a lecturer.

When an assessment is undertaken the mentors/ assessors are invited to provide comments on the student's performance in the **comments** box, and summarise the judgement by indicating the student's grade in the "Assessment" section. A student may repeat **formative** assessments as often as necessary within their placements. Once sufficient assessment of the student's ability in a skill area has occurred, (i.e. each of the performance criteria has been addressed), the mentor/assessor may assess and record the student's level of achievement in the **summative** box at the bottom of the page.

Should a student fail a summative assessment the link lecturer **must** be informed **before** that assessment is repeated. The student should be given support to achieve the standard required for safe practice by the mentor and tutor. Should a student fail to successfully complete any summative assessment during the placements, a further opportunity will be offered for the student to be re-assessed. The student must achieve a pass grade in all summative skills assessments by the end of the programme. If a student fails any summative skills assessment on a second attempt they will have failed and will be required to withdraw.

The awarding of a specific grade by an assessor must only be based upon the student's performance during the completion of a specified assessment. Please refer to the **Guidelines for Scoring Skills Assessment** (see below) for a further explanation of the grades that should be awarded during practical assessments. Examples of pass and fail records are given below. The importance of a rigorous assessment must not be under-estimated. If there is an issue that arises with a student in clinical practice, (including strong concerns or a failure of the student by the mentor/ assessor in a skills assessment), the guidance given on pages 10-12 must be followed. Student nurses should not be failed on a single aspect of performance, provided that they accept guidance and modify their future practice accordingly.

If the student nurse has **not** reached the standard for any item, the link lecturer must be informed at the earliest opportunity before that assessment is repeated. The link lecturer will assist both student and mentor to make fair assessment of the student's performance. The mentor will need to supply evidence on which the decision is based. This should include records of:-

1. The events on which the decision is based.
2. Discussion with others involved in training.
3. Discussions with the student nurse.
4. The evaluation of the student nurse's failure to progress.
5. The reasons for the failure.

Summative assessment can also be undertaken by a member of the teaching staff on the BSc Nursing Programme. Their judgement will be based upon;

- The formative assessment records undertaken in practice
- Evaluation of information contained in the progress sheets
- Discussion with the student
- Reference to any Record of Additional Learning Needs Sheets
- Observation of simulated practice (where necessary)
- Discussion with the student's clinical mentor/s (where necessary)

It is anticipated that all students will make the most of the opportunities offered to them on placement. Should there be concerns about a student, please follow the guidelines given under the section 'what to do if' (further guidance and contact details can be found in the education folder in your clinical area). The University staff will work with you to address these concerns.

The structure of the package should not be seen as inflexible. Whilst a student must have achieved all the required skills for PP1 and PP2 in order to continue to the next part of the programme, it is possible to perform some of the skills for PP2 skills during PP1 if circumstances allow (or dictate). Nevertheless, the student and the Mentor/Assessor must recognise that achieving a skill requires more than the act of doing; it involves the critical application of the relevant knowledge that is developed throughout the programme.

The generic nature of these skills implies that it ought to be possible for all student nurses to achieve them all by the end of the final year. In view of the limited time that the student nurse has got to complete these skills, it is suggested that the package should be reviewed with the mentor/link-lecturer on a weekly basis.

Any person, (other than the student) who writes in this skills book **must** enter a record of their signature into the Register of Signatories (see below).

We thank all those involved in the practice assessment of students from the University of Essex for your support of our students.

What to do If...Information for Mentors

What to do if there is an issue with a student in the clinical area:

Issue	Action to be taken
Student absence or lateness e.g. unauthorised absence, excessive absence, lack of punctuality, request for compassionate leave	<ol style="list-style-type: none">1. Inform the Programme Administrator (01702 328364) or email kebell@essex.ac.uk2. Document absences in the student's skills book.3. Programme Administrator informs the University of Essex link lecturer.4. Link lecturer communicates with clinical staff and student.5. An action plan is agreed, to include: changes required; timescale for changes; review date. This is noted on a copy of <i>Record of Additional Learning Needs</i> (see below). A copy of this form is retained by the student and the mentor sends a copy to the link lecturer.
Poor student performance or concerns about professional behaviour	<ol style="list-style-type: none">1. Mentor discusses the issue with the student and informs the link lecturer. A note is made in the student's skills book indicating how and by when the issue is to be resolved.2. If the problem is unresolved, the University of Essex link lecturer, mentor and student agree an action plan to include: changes required; timescale for changes; review date. This is noted on a copy of <i>Record of Additional Learning Needs</i> (see below). A copy of this form is retained by the student and the mentor sends a copy to the link lecturer.3. The Trust Education Liaison Manager is informed by the mentor of major concerns about student performance.
Clinical incident or accident involving the student	<ol style="list-style-type: none">1. Follow Trust policy on reporting a clinical incident/accident.2. Inform the Trust Education Liaison Manager and the University of Essex link lecturer, link lecturer to inform the programme leader.3. Provide a copy of the incident/accident form to the University of Essex link lecturer/programme leader4. Programme leader decides if further action is required.
Student has difficulty with their academic work	Direct the student to seek help from their module leader/university lecturer.

Guidelines for Mentors

(For full details please see Placement Guidelines)

Guidelines for Scoring Skill Assessment

	Level	Meaning
4	Independent & excellent performance Safe: requires & seeks minimal prompts for thinking or action.	<ul style="list-style-type: none"> ▪ Demonstrates an excellent understanding of knowledge underpinning practice. ▪ Very coordinated, proficient and confident in technical clinical skills. ▪ Professional and caring at all times. ▪ Excellent effective communication skills with clients, carers and staff. ▪ Very good ability to synthesise theory and practice with minimal prompts. ▪ Very well developed clinical reasoning skills.
3	Infrequently assisted & good performance Safe: requires and seeks infrequent prompts for thinking or action.	<ul style="list-style-type: none"> ▪ Demonstrates a sound understanding of knowledge underpinning practice. ▪ Coordinated, proficient and confident in technical skills. ▪ Professional and caring at all times. ▪ Good effective interpersonal communication skills with clients, carers and staff. ▪ Good ability to synthesise theory and practice with infrequent prompts. ▪ Good clinical reasoning skills.
2	Assisted & satisfactory performance Safe: requires and seeks frequent prompts for thinking or action. The awarding of this score (or higher) denotes a PASS grade.	<ul style="list-style-type: none"> ▪ Demonstrates a satisfactory understanding of knowledge underpinning practice. ▪ Coordinated, proficient and confident in most technical skills. ▪ Professional and caring at all times. Appropriate interpersonal communication skills with clients, carers and staff. ▪ Satisfactory ability to synthesise theory and practice requiring prompts at times. Satisfactory clinical reasoning skills.
1	Dependent & unsatisfactory performance Unsafe: requires frequent verbal and physical prompts and direction. This awarding of this score denotes a FAIL grade , please refer to the further guidance given in the preceding pages of this document, the worked examples of a fail record and the 'Information for Mentors - what to do if...' regarding poor student performance.	<ul style="list-style-type: none"> ▪ Deficient in knowledge underpinning practice. Requires frequent prompting to elicit knowledge. ▪ Uncoordinated, unconfident and lacks proficiency in basic technical skills. Professional conduct and caring not consistently demonstrated. ▪ Frequently demonstrates ineffective interpersonal communication skills. ▪ Inability to synthesise theory and practice even with frequent prompting and support.

Adapted from Bondy, K.N. (1983) Journal of Nursing Education. 22(9); University of South Australia (1999) Bachelor of Nursing Clinical Assessment Form; Flinders Medical Centre Performance Review Graduate Nurse

Example of progress sheet

Maintaining Safety – one sheet is included for each set of skills. To be completed during the placements by student and staff who work with the student.

Maintaining Safety (PP1) – PROGRESS SHEET		
Date	Experience & Comments	Signature
01/02/13	<i>Needs to think about assisting people to shower. Needs to consider correct positioning of shower chair before moving client.</i>	<i>Angelina Plume</i>
03/02/13	<i>Practiced moving client using a hoist - helped to transfer clients from bed to chair. Always waited for help.</i>	<i>Dorothy Denton</i>
04/02/13	<i>Too eager to move clients without assistance. More care must be taken to ensure own & client safety.</i>	<i>Martha Cratched</i>
12/02/13	<i>Had problems moving a chest in the clinical room. However asked for assistance and guided me through the procedure.</i>	<i>Sandra May</i>
14/04/13	<i>Was able to describe signs of unconsciousness and the correct procedure for raising alarm. Could describe ABC and BLS protocols.</i>	<i>Charles Fairhead</i>
16/05/13	<i>Helped in the cleaning of hoist and then used it to transfer patient to the bath. Helped to clean hoist again after use in preparation for next client.</i>	<i>Student Nurse Betty Sizemore</i>

Example of a pass record

12c. Planning (CP)			
Aim:			
The newly qualifying nurse will competent in formulating realistic and measurable plans of care.			
ESC: 2.8, 2.10, 2.11, 4.5, 9.14, 9.16, 16.3			
The newly qualifying nurse will continue to demonstrate PP1/PP2 skills and:			
a) is able to plan and document a strategy for care that is realistic, measurable, and is based on a reflection of previous experience and published evidence; recognising, where possible, the importance of client choice. b) is able to negotiate an appropriate plan of care with the client(s), carer(s) and appropriate staff, which takes into account culture and beliefs, legal frameworks and professional ethics. This plan should recognize and promote the client's ability to self-care. c) identifies situations where client choice may compromise safety and act appropriately. d) appropriately manages situations where client's wishes conflict with planned care.			
Date	Ass Type	Grade	Assessor's Signature
21/02/13	Formative	1 2 3 4	Charlie Dickens RMN
Comments <i>Has continuously been involved in care planning for client group and has correctly identified client needs on number of occasions. Ensures that the client is involved in the planning and documents care plan satisfactorily.</i>			
Date	Ass Type	Grade	Assessor's Signature
23/04/13	Formative	1 2 3 4	Charles Fairhead RMN
Comments <i>Student has demonstrated a continued ability to appropriately collaborate with clients and carers to establish care plans. The needs and views of the client and their carers are always included in the plan, and other staff are asked to contribute to the plan where appropriate. Recording is good with a clear indication of responsibility and timescales for various actions. Student is clearly aware of the importance of continually reviewing care plans to ensure currency and validity.</i>			
Date	Ass Type	Grade	Assessor's Signature
05/09/13	Summative	1 2 3 4	Angelina Plume RMN
Comments <i>Student ensured that planning is based upon appropriate assessment and appropriate negotiation of preferences with the client and their carers. Care plans were reviewed regularly and kept up to date and recorded in an appropriate format. Wherever possible the student ensured that care plans were based upon the best available research and they regularly reviewed published databases in search of new evidence. Student always takes account of evaluation strategy during the planning process, which ensures that the plans are always measurable, and set in an appropriate timescale.</i>			

Example of a fail record

3a. Physiological Measurements (PP1)			
Aim:			
The student nurse is able to accurately measure and record vital signs			
ESC: 5.2,5.4, 9.1-9.3, 9.6, 9.8-9.11, 10.5, 28.1, 28.4			
Performance criteria:			
The student nurse:			
a) is able to carry out clinical screening of Body Mass Index and vital signs, (to include pulse, blood pressure, respirations, and temperature) and cleanses/disposes of equipment appropriately.			
b) is able to record findings in the appropriate documentation, recognising their significance.			
c) is able to recognise deviations from the norm, or the agreed action plan and reports these to relevant members of the healthcare team in a timely manner.			
d) is able to describe the potential impact that the environment or emotions have upon physiological measurements.			
e) is able to identify indicators of unhealthy lifestyles and their associated risks.			
Date	Ass Type	Grade	Assessor's Signature
21/02/13	Formative	1 ② 3 4	Eric Williams RMN
Comments			
<i>Able to measure temperature, pulse and respirations and calculate BM1. Has difficulty in hearing blood pressures, but draws this to the attention of other staff and other members of the group. Accurately described the effects of anxiety on BP and pulse.</i>			
Date	Ass Type	Grade	Assessor's Signature
01/05/13	Formative	1 ② 3 4	Angelina Plume RMN
Comments			
<i>Has adequately measured vital signs in a number of clients and has a clear understanding of the importance of client emotions on readings. Has made correct use of electronic BP monitor. Appears too hurried in recording measurements, making them difficult for other staff to read, necessity of accurate recording discussed. Able to discuss the potential impact of obesity on long-term health.</i>			
Date	Ass Type	Grade	Assessor's Signature
01/07/13	Summative	① 2 3 4	Charles Fairhead RMN
Comments			
<i>Able to measure temperature, pulse and blood pressure on a number of clients, but has not informed S/N when clients' temperature is high. Has not fully grasped how to record findings on the chart and has made 2 errors in recording BP. Student did describe in detail the potential impact of panic on pulse and respiration rates. However, accurate recording and reporting of unexpected readings are essential for safe practice.</i>			

Communication & Relationships (PP1) – PROGRESS SHEET		
Date	Experience & Comments	Signature

1a. Communication & Relationships (PP1)

Aim:

The student nurse is able to communicate effectively with clients, carers and other health care workers.

ESC: 1.5, 1.6, 3.1, 3.3, 4.1, 5.5, 6.1-6.6, 11.2, 13.1-13.3, 14.5,

Performance criteria:

The student nurse:

- exhibits appropriate body language and a professional demeanour towards clients, carers and other health care workers
- is able to develop a good working relationship with clients, carers and other health care workers, referring to others in the team as required.
- is able to demonstrate effective, culturally competent verbal communication skills, (face-to-face and by telephone) in a range of settings – including when someone is distressed or aggressive.
- is able to describe (and where appropriate demonstrate) methods of enhancing communication with clients who have hearing, sight or speech difficulties.
- is aware of the communication/ documentation required for appropriate assessment, planning, delivery and evaluation of care, (for example during transfer/ transition of a client's care).

Communication and Relationships (PP2) – PROGRESS SHEET		
Date	Experience & Comments	Signature

1b. Communication and Relationships (PP2)

Aim:

The student nurse will acquire the skills necessary to build respectful and therapeutic relationships with clients (including a range of effective interviewing skills).

ESC 1.11, 1.12, 5.7, 5.11, 5.12, 6.7, 6.8, 6.12

Performance Criteria:

The student nurse will continue to demonstrate PP1 skills and:

- a) demonstrates safe and competent communication with clients, including active listening, use of verbal and non-verbal communication skills and the effective use of questioning.
- b) consistently employs appropriate language to promote the development of trusting client-nurse relationships.
- c) is effective in initiating, maintaining and terminating sessions.
- d) demonstrates an ability to negotiate and maintain safe professional boundaries.
- e) recognises the importance of developing rapport with clients/carers and responds appropriately to discomfort or distress.
- f) demonstrates an insight into own values and how these may impact on client interactions, taking action to prevent these personal values from compromising client care.

Communication and Relationships (CP) – PROGRESS SHEET		
Date	Experience & Comments	Signature

1c. Communication and Relationships (CP)

Aim:

The newly qualifying nurse will possess the skills necessary to build respectful and therapeutic relationships with clients (including an understanding and demonstration of empathy).

ESC 1.11, 1.12, 1.14, 2.8, 5.6, 5.7, 5.10, 5.11, 6.10

The newly qualifying nurse will continue to demonstrate PP1/PP2 skills and:

- a) demonstrates the ability to negotiate the agenda for session.
- b) whilst displaying appropriate levels of warmth, concern, genuineness and professionalism, demonstrates concern for and an understanding of the client's situation.
- c) recognises and acts to overcome barriers in developing effective relationships with clients/carers.
- d) at all times promotes effective collaboration with the client/carer, in order to maximise, where possible, client choice.
- e) is able to pace interactions and use time efficiently, respecting the client's individual need to be heard.
- f) demonstrates an awareness of self, and challenges own and other professionals' prejudices, using the professional networks available to promote high standards of care.

Record Keeping (PP1) – PROGRESS SHEET		
Date	Experience & Comments	Signature

2a. Record Keeping (PP1)**Aim:**

The student nurse will be able to maintain legible and contemporaneous nursing documentation.

ESC 6.1, 6.2, 6.5, 7.1-7.3, 8.1

Performance criteria:

The student nurse:

- demonstrates accurate knowledge and application of the NMC's **Guidelines for Records and Record Keeping** and always works within this framework.
- demonstrates knowledge and application of the NMC guidelines and UK law for obtaining consent for nursing interventions and always works within this framework.
- demonstrates ability to clearly and accurately record findings of clinical screening/observations in written documentation.
- demonstrates knowledge of and applies principles of confidentiality and data protection, can describe to assessor situations in which confidentiality may be broken for safeguarding or public protection.

Record Keeping (PP2) – PROGRESS SHEET		
Date	Experience & Comments	Signature

2b. Record Keeping (PP2)**Aim:**

The student nurse will be able to maintain complete, concise and legible and contemporaneous nursing documentation.

ESC 7.4-7.9, 8.2, 8.3, 8.5-8.7,

Performance Criteria:

The student nurse will continue to demonstrate PP1 skills and:

- demonstrates accurate knowledge and application of the NMC's **Guidelines for Records and Record Keeping** and always works within this framework.
- works within the NMC Guidelines and UK law for obtaining consent for nursing interventions and always conforms client's consent and understanding.
- demonstrates knowledge of individual Trust's Policies/Procedures on Record Keeping and always works within such frameworks.
- demonstrates knowledge and application of the NMC Guidelines and UK law for sharing of information and data protection and always works within this framework.
- is able to describe to the assessor the appropriate use of CPA documentation/electronic client record for each practice area.
- identifies relevant information from clients on which to build a care plan.

Record Keeping (CP) – PROGRESS SHEET		
Date	Experience & Comments	Signature

2c. Record Keeping (CP)

Aim:

The newly qualifying nurse will be able to maintain comprehensive nursing documentation.

ESC 6.9, 7.5-7.9

The newly qualifying nurse will continue to demonstrate PP1/PP2 skills and:

- is able to consistently demonstrate appropriate and contemporaneous record keeping which is regularly reviewed with assessor for accuracy, relevance and legibility.
- consistently involves clients in the formulation of their records, particularly in relation to care planning and discharge.
- operates within national and trust policies on data and information sharing in order to promote continuity of care.

Physiological Measurements (PP1) – PROGRESS SHEET		
Date	Experience & Comments	Signature

3a. Physiological Measurements (PP1)

Aim:

The student nurse is able to accurately measure and record vital signs

ESC; 5.2,5.4, 9.1-9.3, 9.6, 9.8-9.11, 10.5, 28.1, 28.4

Performance criteria:

The student nurse:

- is able to carry out clinical screening of Body Mass Index and vital signs, (to include pulse, blood pressure, respirations, and temperature) and cleanses/disposes of equipment appropriately.
- is able to record findings in the appropriate documentation, recognising their significance.
- is able to recognise deviations from the norm, or the agreed action plan and reports these to relevant members of the healthcare team in a timely manner.
- is able to describe the potential impact that the environment or emotions have upon physiological measurements.
- is able to identify indicators of unhealthy lifestyles and their associated risks.

Physiological Measurements (PP2) – PROGRESS SHEET		
Date	Experience & Comments	Signature

3b. Physiological Measurements (PP2)**Aim:**

The student nurse will acquire the knowledge and skills required to make accurate measurements of a variety of physiological observations.

ESC: 9.7, 9.8

Performance Criteria:

The student nurse will continue to demonstrate PP1 skills and:

- is able to consistently perform and accurately document physiological measures (eg take temperature, pulse, respirations, BP, weight) and undertake urinalysis.
- is able to collect samples of urine or faeces and dispose of waste products appropriately from clients in clinical and domestic environments.
- is able to accurately record the findings of the above in the appropriate documentation.
- is able to interpret findings, recognise deviations from the norm, and bring to the attention of appropriate colleagues.

3c. Physiological Measurements (CP)

Aim:

The newly qualifying nurse will be competent at making accurate measurements of a variety of physiological observations.

ESC: 9.16, 9.20, 9.21

The newly qualifying nurse will continue to demonstrate PP1/PP2 skills and:

- is able to recognise deviations from the norm in physiological measurements and present a relevant rationale to the assessor for such occurrences.
- is able to take appropriate action to effectively manage these deviations.
- is able to explain to the client the reason for physiological measurement and present a relevant rationale to the client for any variation in these measurements.

Psychological Assessments (PP1) – PROGRESS SHEET		
Date	Experience & Comments	Signature

4a. Psychological Assessments (PP1)**Aim:**

The student nurse is able to identify changes in the client's emotional state.

ESC; 5.2, 5.4, 9.1, 9.6-9.9

Performance criteria:

The student nurse:

- a) is able to identify verbal and non-verbal communication and emotional states including aggressive behaviour and describe these to the assessor.
- b) is able to record findings in the appropriate documentation, recognising their significance.
- c) is able to identify the possible impact that physical health and the environment can have on mood.
- d) appropriately responds to assessment data that deviates from the norm.

4b. Psychological Assessment (PP2)**Aim:**

The student nurse will acquire the knowledge and skills required to make accurate assessment of the clients' psychological state.

ESC: 5.8, 9.3, 9.4, 9.8, 9.10, 10.5

Performance Criteria:

The student nurse will continue to demonstrate PP1 skills and:

- is able to observe verbal & non-verbal communication and emotional state and describe these to the assessor.
- when appropriate accurately documents the above observations in the client's record and responds appropriately to changes.
- is able to undertake a recognised psychological/mental state assessment and accurately report the findings to the assessor.
- demonstrates appropriate culturally-sensitive communication skills.
- uses information from the assessment to inform the care plan.
- recognise client's lifestyle choices as coping strategies and their potential impact on physical and psychological wellbeing.

Medication Administration (PP1) – PROGRESS SHEET		
Date	Experience & Comments	Signature

5a. Medication Administration (PP1)**Aim:**

The student nurse is able to administer medication under direct supervision.

ESC; 2.4, 10.1, 10.3, 26.1, 33.1, 38.1-38.3, 40.1, 41.1

Performance criteria:

The student nurse:

- in the classroom is able to achieve the required standard when performing basic drug calculations, demonstrating an accurate knowledge of conversion of units of measure (assessed in the University).
- is able to safely carry out basic medicine calculations in a clinical setting.
- demonstrates an awareness medication and other treatments, their indications, side effects, and routes of administration.
- under direct supervision, safely administers medication, including orally, by injection, (*through simulation where necessary*), and safely monitors self-administration.

Medication Administration (PP2) – PROGRESS SHEET		
Date	Experience & Comments	Signature

5b. Medication Administration (PP2)**Aim:**

The student nurse will be a safe practitioner when administering medications to clients, and will have a working knowledge of the actions and side-effects of commonly used drugs.

ESC 2.5, 26.1, 34.1-34.3, 35.1, 35.2, 36.1, 37.1, 37.2, 38.1-38.4, 39.1, 39.2, 40.1-40.3, 41.1, 42.1

Performance Criteria:

The student nurse will continue to demonstrate PP1 skills and:

- in the classroom is able to achieve the required standard when performing drug calculations, demonstrating an accurate knowledge of conversion of units of measure (assessed in the University).
- in the practice setting, under supervision, able to safely calculate medicine dosages and perform drug administrations using oral, IM and SC routes, correctly recording the medications administered and omitted, including controlled drugs.
- is able to communicate with clients and carers, nursing staff, allied health professionals, and medical staff accurate information concerning medication.
- is able to demonstrate to the assessor the correct legal framework and local procedure for the ordering, storage and disposal of medication (including controlled drugs) in primary and/or secondary care settings.
- engage with clients in relation to pharmaceutical and non-pharmaceutical approaches to condition management.
- identify side effects and adverse reactions relating to common medicines and respond appropriately.
- demonstrate an understanding of different types of prescribing, including Patient Group Directions (PGD*), types of prescribing and methods of supply.

(*Student nurses may **not** administer medicines under PGDs)

5c. Medication Administration (CP)**Aim:**

The newly qualifying nurse will be a safe and competent practitioner when administering medications to clients, and will have a working knowledge of the actions and side-effects of commonly used drugs.

ESC: 33.2, 34.2, 34.4-34.6, 35.3, 35.4, 36.2-36.6, 37.2, 38.4-38.6, 40.3-40.5, 41.2, 42.1-42.3

The newly qualifying nurse will continue to demonstrate PP1/PP2 skills and:

- in the classroom is able to achieve the required standard when performing drug calculations, demonstrating an accurate knowledge of conversion of units of measurement, using all routes of administration (assessed in the University).
- in placement setting safely manages drug administration, (including correct drug calculations) monitors effects of treatment and reports adverse effects.
- critically appraises available treatment options and uses evidence to determine when medicines are appropriate treatments.
- shows accurate knowledge of a range of medications (actions, calculation of doses, side-effects, interactions, etc.), their prescriptions, supply and administration in community and hospital settings.
- is able to explain relevant information to clients and carers regarding their medications (actions, doses, side-effects, interactions, etc.) and assist them in making safe and informed choices.
- is able to recognise and safely manage anaphylaxis.
- assesses the client's ability to self-administer medications.
- works within national and local policies for medicines management, including controlled drugs.
- is able to demonstrate to the assessor the correct legal framework and local procedure for the ordering, storage and disposal of medication (including controlled drugs) in primary and/or secondary care settings.
- able, **through coursework and simulation**, to demonstrate knowledge, understanding and use of Patient Group Directions.
- is able to safely supervise others in all aspects of administration of medicines.

Infection Control (PP1) – PROGRESS SHEET		
Date	Experience & Comments	Signature

6a. Infection Prevention and Control (PP1)

Aim:

The student nurse is able to apply principles of infection control.

ESC; 5.2, 5.4, 21.1, 22.1, 24.1-24.3, 26.1, 26.2

Performance criteria:

The student nurse:

- is able to demonstrate an effective hand-washing technique.
- is able to dispose of clinical and household waste appropriately in all environments, taking account of health and safety policies and procedures.
- is able to take steps that are designed to reduce the risk of cross-infection, (e.g. dress code, barrier or isolation nursing).
- demonstrates an understanding of the potential psychological/ sociological impact of infection control procedures on the client and their carers.
- is able to apply local and national infection control policies and procedures to their own clinical practice.

Infection Prevention and Control (PP2) – PROGRESS SHEET		
Date	Experience & Comments	Signature

6b. Infection Prevention and Control (PP2)

Aim:

The student nurse will understand the principles of preventing infection and will have a working knowledge of infection control measures.

ESC: 21.2-21.5, 21.9, 21.11, 22.2-22.6, 23.1-23.4, 26.1, 26.3, 26.4

Performance Criteria:

The student nurse will continue to demonstrate PP1 skills and:

- a) adheres to infection prevention and control policy and procedures at all times and in all environments.
- b) is able to assess the needs of the client with an infectious condition, plan and document care accordingly.
- c) is able to assess and facilitate maintenance of clients' hygiene needs including nursing in isolation.
- d) demonstrates understanding roles and responsibilities in promoting and maintaining a high standard of ward/department cleanliness and refers accordingly.
- e) is able to communicate potential risks of infection to colleagues and advise clients and relatives on infection prevention and control measures.
- f) recognises signs and symptoms of infection.
- g) responds appropriately in all environments to infection exposure.
- h) demonstrates knowledge of exposure prone procedures and personal/professional responsibilities in managing blood borne viruses.
- i) use medical devices and manage their decontamination/sterilisation and maintain accurate records.

Aim:

The newly qualifying nurse will understand the principles of preventing infection and competently undertake infection control measures.

ESC: 20.4, 21.7-21.11, 22.7-22.11, 23.5-23.8, 24.4, 26.4, 26.5,

The newly qualifying nurse will continue to demonstrate PP1/PP2 skills and:

- a) is able to communicate potential risks of infection to colleagues and advise clients and carers on infection prevention and control measures.
- b) is able to initiate, maintain, and document appropriate measures to prevent and control infection including application of legislation if appropriate.
- c) is able to manage risk, including hazardous waste and spillages, in accordance with health and safety policies.
- d) acts as a role model to others in upholding infection prevention and control measures and challenges unsafe practices.
- e) makes appropriate use of clinical experts for advice and referral.
- f) can apply standard isolation procedures – and identify suitable alternatives if standard procedures not achievable.
- g) use medical devices and manage their decontamination/sterilisation and maintain accurate records.

Nutrition (PP2) – PROGRESS SHEET		
Date	Experience & Comments	Signature

10b. Nutrition (PP2)

Aim:

The student nurse will be able to give good nutritional support to clients.

ESC: 9.9, 27.1-27.3, 27.5-27.7, 28.1-28.6, 28.8, 28.9, 29.1, 30.3, 30.4, 30.6-30.8, 31.1-31.3

Performance Criteria:

The student nurse will continue to demonstrate PP1 skills and:

- is able to undertake comprehensive nutritional assessment, plan and deliver care; identifying client's needs for nutritional support and suggesting/taking appropriate action to maintain nutrition.
- monitors and records the client's condition and progress, discusses this with the client/carer, MDT and refers to experts as appropriate.
- is able to recognise the factors, which may affect nutritional intake and ensure nutritional status is not compromised.
- is able to promote appropriate nutritional intake, ensuring assistance and appropriate food and fluid are available as required by clients and making provision for replacement meals if needed.
- adheres to local policies regarding organization and delivery of care to clients.

Maintaining Safety (PP1) – PROGRESS SHEET		
Date	Experience & Comments	Signature

17a. Maintaining Safety (PP1)

Aim:

The student nurse will be able to maintain and promote a safe working environment and act appropriately in emergency situations.

ESC; 9.9, 11.1, 11.2, 17.1, 17.2, 18.1-18.6, 19.1, 19.2, 20.1, 22.4, 22.5

Performance criteria:

The student nurse:

- a) is able to recognise and describe the signs/symptoms associated with loss of consciousness, cardiac and respiratory arrest.
- b) is able to recognize and report a risk to safety of themselves or others (including safeguarding issues) and refers to an appropriate colleague for guidance.
- c) is aware of the importance of security in the workplace.
- d) is aware of the procedure for raising the appropriate alarm in the event of an emergency, or unsafe situations (e.g. client collapse, self harm, extremely challenging behaviour) and responds appropriately when faced with such eventuality.
- e) is able to demonstrate the required standard of proficiency in classroom based assessments for first aid and basic life support.
- f) is aware of and acts within safeguarding policies for vulnerable people and seeks advice from colleagues when there are concerns or doubts.
- g) is able to operate, cleanse and dispose of equipment and appliances safely (e.g. injection equipment, hoists or pinpoint personal alarm systems etc.) in accordance with local policy.
- h) observes local policies and procedures (e.g. Health and Safety manual, Needlestick Injury Policy, Incident reporting, Safeguarding Children & Vulnerable Adults, manual handling).
- i) applies local policies on manual handling to clinical practice.
- j) demonstrates awareness of the importance of appropriate rest when planning their own work commitments.

DEMONSTRATION OF CORE PROFESSIONAL VALUES - TERM 9 – TO BE COMPLETED IN <u>ALL</u> PLACEMENTS BY THE MENTOR		
NAME OF STUDENT		
PLACEMENT NAME		
<p>During this placement the student should demonstrate the shared values of all the United Kingdom health care regulatory bodies (in bold below) to a standard appropriate for entry onto the UK professional nursing register. The student must observe the current NMC Code.</p> <p><i>ESC 1.8-1.11, 2.8, 3.7-3.10, 4.3, 7.5-7.9, 8.4, 9.15, 10.6, 11.10, 14.1, 14.6, 14.7, 14.10, 15.2, 15.5, 16.5 17.3, 17.7, 17.8, 18.9, 18.11, 18.15</i></p>		<p>Grade (please circle)</p> <p>This is marked using the same grading system as the rest of the skills book. If a mark of 1 is recorded, the mentor must document on this sheet how the student failed to meet the required standard.</p>
a	The student demonstrates respect for the patient or client as an individual , including maintaining privacy and dignity and respecting a client's gender, culture, race, sexuality, age, religion and disability and client preference.	1 2 3 4
b	Whenever possible the student obtained consent before giving any treatment or care giving appropriate information to allow an individual to make an informed choice.	1 2 3 4
c	The student acted in such a way as to protect confidential information from being disclosed inappropriately.	1 2 3 4
d	The student promoted the best standards of patient/client care through co-operation with others in the team . Including demonstration of good time keeping and individual responsibility in the workplace.	1 2 3 4
e	The student continuously maintains their professional knowledge and competence , acknowledging their limitations and brings these to the attention of the senior practitioner in order to identify their learning needs and help to maintain a safe practice environment and challenges poor practice in self and others.	1 2 3 4
f	At all times the student was trustworthy and behaved in a way that upholds the reputation of the nursing profession.	1 2 3 4
g	The student helped to identify and minimise risk to patients and clients working with other members of the team to promote health care environments (clinical and domestic) that are conducive to safe, therapeutic and ethical practice.	1 2 3 4

Record of Additional Learning Needs/ Placement Issues

Please use **a copy of** this form to document any additional learning needs of the student and/ or any placement issues. This should be completed through mutual discussion and agreement between the mentor and the student. It is the responsibility of both the mentor and the student to promote resolution of difficulties within the placement at the earliest opportunity. A copy of the form should be retained by the student and the **mentor** should send a copy to the link lecturer.

Student name **Mentor name**

Placement name.....

Description of Issue	Date reported	Plan of action	Review Date	Student Signature	Mentor signature

A review date must be set prior to the end of the placement.

Resolved?	Remaining Issues/ Plan of action	Student Signature	Mentor Signature

If an issue remains unresolved following the review date please refer to the Placement Issue/ 'what to do if...' guidance given on pages 8-9 of this book.

Additional copies of this form can be found within the placement information folder held on the ward. Please contact the link lecturer, if you require further guidance.

Register of Signatories

All assessors verifying work in this document should complete one line of this sheet.

REGISTER OF SIGNATORIES 1			
Signature Sample	Name	Post/ Qualification	Location of work/ Tel Number

REGISTER OF SIGNATORIES 2			
Signature Sample	Name	Post/ Qualification	Location of work/ Tel Number

REGISTER OF SIGNATORIES 3			
Signature Sample	Name	Post/ Qualification	Location of work/ Tel Number

Further copies of this page may be obtained from the common learning administrator and can be secured into this book

Module Progress Record

TO BE COMPLETED BY UNIVERSITY TUTOR ONLY

Please ensure your skills book is handed in at the end of each placement for review. When going to your next placement please take note of the comments and recommended action from your tutor and plan learning activities accordingly with your next mentor and link lecturer.
