Using this touch panel

Please touch the screen to start

The input screen should appear, select the input you require and it will appear on the screen

If the visualiser option is selected, you must also select whether you would like to use the left hand side, right hand side or dual visualiser

Once you have finished your session press the “Shutdown” key

Press “YES” to confirm, the panel will shut down and the projector will turn off

If the panel becomes unresponsive or does not function as intended, please shut down the panel and start again using the instructions above

If you encounter any issues or require further training please call ext. 3220 or e-mail avs@essex.ac.uk
