

# LinkedIn Learning for Instructors

LinkedIn Learning is a great tool for supplementing your classroom training. Instead of using valuable class time teaching basic skills and software, you can assign easy-to-use online videos. In addition to helping your students succeed, LinkedIn Learning is a powerful resource for you to build new skills and stay up-to-date on current trends.

## Add a link to Moodle

---

This is a good option if you don't need to see viewing statistics for the content your sharing.

1. Log in to [LinkedIn Learning](#) and **search** for the course or individual video you wish to share.
2. **Filter** results if required then click on an item to open it.
3. **Copy the URL** from the address bar at the top and **paste into your Moodle course**.

## Embed a video in Moodle

---

If you have linked your Linked account with your LinkedIn Learning account, you have the added benefit of being able to unlock and embed up to 5 videos per month, but you won't be able to see viewing statistics in LinkedIn Learning for this content.

1. Log in to [LinkedIn Learning](#) and **search** for the course or individual video you wish to share.
2. **Filter** results if required then click on an item to open it.
3. In the upper right corner, click on the arrow icon (**Share this course**) and then **Unlock Video to Embed**
4. Click on **Get Embed Code** (the code will be copied to your clipboard).
5. Go to your Moodle course and **Turn editing on**.
6. Decide where you want the video to appear and click **Edit** (eg Edit Topic).
7. Click on the arrow icon to **Show/hide advanced buttons**, then enter **HTML mode** (</>)
8. Paste the embed code and **Save**.

## Add an LMS Package to Moodle

---

You can download videos and courses already and add to your Moodle courses. Learning Paths and Collections will be available to download soon. Learner viewing stats will be available via Moodle with this option.

1. Log in to [LinkedIn Learning](#) then **Go to Admin**.
2. In the top menu bar, click on **Content**.
3. In **Explore**, search for content, click to open it, then choose **Download LMS Package** (the .zip file will be saved in your **Downloads** folder).
4. Go to your Moodle course and **Turn editing on**.
5. Select **+Add an activity or resource** then choose **SCORM package** from the list and click **Add**.
6. Enter a **Name** (required) and **Description** (optional) then scroll down to **Package**.
7. Drag and drop the downloaded .zip file into the indicated space then **Save**.

## Integrate content with Moodle

---

This is a good option if you would like access to viewing statistics via LinkedIn Learning or Moodle reporting.

1. Log in to [LinkedIn Learning](#) then **Go to Admin**.
2. In the top menu bar, click on **Content**, then:
  - a. In **Explore**, search for content, click to open it, click on the arrow icon (**Recommend**) and choose **Get SSO URL** from the list (the link will be copied to your clipboard); or
  - b. In **Learning Paths** and **Collections** click the arrow (**Recommend**) and choose **Get SSO URL** from the list (the link will be copied to your clipboard).
3. Go to your Moodle course and **Turn editing on**.
4. Select **+Add an activity or resource** then choose **External tool** from the list and click **Add**.
5. Enter a **Name** (required) and **Description** (optional).
6. **Paste** the url into **Tool URL** and click **Show more...**
7. Set the **Launch container** to **New window** then click **Save and display**.
