### Undergraduate Information Sheet 2016-17

The links below are **important** links which you will need to access during your time as a student. Most information can be found online and important announcements are also made via email. It is important to check your email frequently (at least once a day during term time). Ignorance is not a valid excuse so please familiarise yourself with the departmental handbook available from the link below and make sure you are fully aware of how you are assessed. If in doubt, contact your advisor.
