C  Student has failed 45 or 60 credits after reassessment in Stage 1

Check how many attempts the student has had at the assessment for the module including this one. (NB exclude any given as first sits due to ext circs)

a) had 1 or 2 attempts*

Eligible for reassessment

Compulsory Reassessment will be required in the following cases**:

- All failed core modules.
- Any non-core modules where module mark is less than 20.
- Any non-core modules (regardless of module mark) where stage mark is less than 40.

Voluntary Reassessment (non-core modules only):

Senate agreed that students should be offered voluntary reassessment where appropriate. This essentially means offering voluntary reassessment in a maximum 30 credits’ worth of non-core modules where:

- The module mark is 20 or more and stage mark is 40 or more.
- If 45 or 60 credits’ worth of modules fall into this voluntary reassessment profile, only 30 can be regarded as voluntary. The remainder will be compulsory. *(Assessment Team will update RPS to show give them compulsory choice and set the appropriate minimum and maximum limits on credits to be reassessed)*

Students must be warned about the consequences of not taking their ‘voluntary’ reassessment, and told whether the module mark comes into the range where credits could be awarded (i.e. 35% with stage mark of 45%).

b) had 3 attempts*

Not eligible for reassessment

Withdraw from course.
